

# Tracy Killeen

**Tracy Killeen** (the taller half of the highly successful 'Sweeney Killeen' duo) launches her solo career with a new album 'Back There'.

All good things take a little time to come to fruition and Tracy's album **Back There** certainly shows all the signs of careful and sensitive creation. 'Back There' contains mostly original songs written by herself and with producer *Roger Corbett*, ace songwriter *Drew McAlister*, *Amber Lawrence* and close friend *Sara Storer*. The themes of land, family, friends and love are all familiar but given beautiful resonance through Tracy's warm and charming vocals.
